

Declaration of Information in support of Indivior's commitment to reporting transparent transfers of value to healthcare professionals, healthcare organisations and patient organisations.

We declare that the information stated below has been prepared in accordance with the requirements of the clauses according to local rules.

This is a true and complete statement reflecting all payments made in the Financial Year 2016 covering the months of January to December 2016.

Patient Organisations

Patient organisations are defined as not-for-profit organisations (including the umbrella organisations to which they belong), mainly composed of patients and/or caregivers, that represent and/or support the needs of patients.

Healthcare Organisations

Any legal organisation that is a healthcare, medical or scientific association or organisation (irrespective of the legal or organisational form) such as a hospital, clinic, foundation, university or other teaching institution or learned society (except for patient organisations).

The Company regards all hospitals, Clinical Commissioning Groups (CCGs), GP practices and other places of work for HCPs treating patients or providing associated advice or management services related to the treatment of patients, as healthcare organisations.

In addition, all medical societies (International, national or local) and all "networks" of associations for HCPs are regarded as healthcare organisations.

Private companies such as medical education agencies, or suppliers of "temp" nurses, etc., are not typically regarded as healthcare organisations, especially where the majority of employees are non-HCPs.

Patient Organisations Support

Any transfer of value to a patient organisation. This includes indirect / non-financial support but excludes payment for services

Declaration of Information in support of Indivior's commitment to reporting transparent transfers of value to healthcare professionals, healthcare organisations and patient organisations.
 We declare that the information stated below has been prepared in accordance with the requirements of the clauses according to local rules.
 This is a true and complete statement reflecting all payments made in the Financial Year 2016 covering the months of January to December 2016.

Healthcare professional (HCP)

Any natural person that is a member of the medical, dental, pharmacy or nursing professions or any other person who, in the course of his or her professional activities, may prescribe, purchase, supply, recommend or administer a medicinal product.
 For the purposes of disclosure, the company regards all employees of national health care services as HCPs regardless of their professional status.
 In addition, the company regards all registered or qualified healthcare professionals as within the scope of disclosure regardless of their employment status.
 Thus retired HCPs fall within scope.
 Where HCPs are employed directly and exclusively by the company their salary and benefits are outside the scope of disclosure.
